Introduction

Welcome

Sofort.com payment method for opencart

This integration guide will give you all the necessary informations that you need to install this modul in your opencart shop.

First steps

Requirements

You need:

1. An installed opencart shop with one of the following versions : 1.5.x, 2.0.x, 2.1.x, 2.2.x,3.x.x
2. An Sofort.com account
3. A existing Gateway-Projekt, or its configurationkey.
 1. This key is your customernr:project-id:API-Key (ex. 12345:123456:edc788a4316ce7e2ac0ede037aa623d7)
4. An currency that is supported by Sofort.com (EUR, GBP, CHF, PLN, HUF und CZK). These can be created at System -> Localisation -> Currencies.
 1. ! The choosen currency has to be the same curreny, you are using with your Sofort.com account.

Installation

VqMod Version

1. Unzip the ksofort.zip
2. Upload the files and folder that are inside the "upload" folder to your server (Shop main directory). Pay attention to choose the correct version for your store.
3. Go to your shop/admin -> Extensions -> Payments
 1. Install Sofort.com.
 2. Click on edit.
 3. Add your "configurationkey" and change the status to active, if necessary change the settings.
 4. Save.
4. Done !

OcMod Version (3.x)

1. In the admin area, navigate to Extensions -> Installer and click Upload.
 1. Choose the sofort.ocmod.zip .
2. Navigate to Extensions -> Modifications and click on "Refresh".
3. Navigate to Extensions -> Modifications -> Payments and install the module by clicking on the green + symbol.
 1. Set up the module with your configurationkey.

4. Done !

Gateway Project - Setup

In your Sofort.com Account you have to choose "Gateway-Project" for your Project

Auswahl des Projekttyps

Bitte wählen Sie für die Nutzung der SOFORT Überweisung in Ihrem (Shop-)System zunächst einen geeigneten Projekttyp aus. Dieser ist davon abhängig, wie Ihr (Shop-)System mit SOFORT kommuniziert.

*Sie wissen nicht, welcher Projekttyp für Sie geeignet ist?
Klicken Sie hier und suchen Sie nach Ihrem zugrundeliegenden (Shop-)System.*

Gateway-Projekt

- Sie nutzen unsere aktuelle Schnittstelle per XML
- Sie konfigurieren Ihr (Shop-)System für SOFORT, indem Sie folgende Felder angeben:
 - UserID
 - ProjektID
 - API-Key / Konfigurationsschlüssel

Classic-Projekt

- Sie nutzen unsere Schnittstelle per Name-Value-Pair (NVP) über HTTP GET
- Sie konfigurieren Ihr (Shop-)System für SOFORT, indem Sie folgende Felder angeben:
 - UserID
 - ProjektID
 - Projekt-Passwort
 - ggf. Benachrichtigungspasswort

oder

At the menu item "Settings for all payment methods" you don't have to specify your settings, the modul uses the correct settings that are needed.

Settings

Configuration-Key: After setting up a new Sofort-Gateway-Project, this key will be send to you via e-mail. It consists of CustomerNr:Project-ID:API-Key (ex. 12345:123456:edc788a4[.]).

Total: The checkout total the order must reach before this payment method becomes active. If this field is empty, no total must be reached.

Currency: This currency will be used for Sofort.com, the payment costs will be converted to this currency. **The chosen currency must match the currency of your Bankaccount at Sofort.com.**

Order Status: This order status will be set, if the order was paid successfully.

Status Canceled Order: This order status will be set, if the customer cancels the order by clicking the "candle" button at the sofort.com payment site.

Geo Zone: Only customers within this geo zone can use the sofort payment method.

Status: Activates/disables the modul.

Sort Order: Sets the sort order for all paymentmethods shown.

Some user want to change the data that is passed to their bank.

You can do this at the following file: "**catalog/controller/payment/ksofort.php**"

There you need to find the line : **`$Sofortueberweisung->setReason("Sofort - " . $order['order_id'] . " - " . $order['lastname'] . " " . $order['firstname']);`**

You can change the reason according to your requirements.

***Attention : If this reason is so long, the bank will cut it off.**
